Course Objectives: As a result of the participation in this activity, participants should be able to:

1. Define disclosure requirements for healthcare facilities and providers.
2. Articulate their ethical and legal duties of disclosure.
3. Identify who should disclose adverse incidents to patients and families.
4. Discuss the benefits of disclosure.
5. Apply specific case examples of how disclosure has long-term effects
6. Understand how apology law and disclosure law interplay with admission of fault.
