Course Objectives: As a result of the participation in this activity, participants should be able to:
1. Discuss the multiple factors propelling medical error prevention and patient safety efforts.
2. Review Joint Commission standards relating to Sentinel Events.
3. Distinguish between Failure Mode and Effect Analysis and Root Cause Analysis
4. Recall the difference between the Joint Commission's Sentinel Event and Florida's definition of adverse event.
5. Discuss patient safety origins and National Patient Safety Goals.
6. Differentiate between adverse drug event and adverse drug reaction.
7. Describe some of the most common drugs involved in adverse drug events.
8. Recognize the importance of staying within a licensee's scope of practice.
9. Describe the 5 right of delegation.
10.Relate circumstances under which to initiate the chain of command.
11.Discuss the importance of timely, adequate and accurate medical record documentation.
