SECOND VICTIMS PROGRAMS

Difficult cases, unexpected outcomes, or medical errors occur in all health care organizations. These programs provide support to our health care providers following an adverse event, traumatic clinical events, the death of a patient and any other event that is emotionally challenging.

SIGNIFICANT EVENTS

- Legal action
- Suicide of a colleague
- Serious work related injury
- Multi-casualty/disaster/terrorism
- Events involving children
- Victim is known to providers
- Excessive media interest
- Poor outcomes, challenging families
- High volume, high patient acuity
- Death, divorce, illness in family
